## WORK EXPERIENCE

---

### Viaero Wireless

Fort Morgan, CO

#### Product Manager

Dec 2022 – May 2025

- Defined product vision for broadband and IP services by analyzing frontline customer pain points and usage trends, improving engagement and retention by 27%.
- Partnered with supply chain, process engineering, sales, and marketing teams to build and internal inventory-request tool, improving workflow efficiency, reducing lost inventory complaints by ~60%, and increasing on-time delivery 46%.
- Led end-to-end development of a new eCommerce web platform from discovery through launch, partnering with engineering, UX, and marketing to ship iterative improvements that reduced cart abandonment from over 75% to under 30%.
- Partnered with UX and marketing to redesign the checkout flow to reduce friction, improving price transparency, and lower final-price shock during purchase completion.
- Coordinated with external vendors to integrate a trade-in widget into the shopping journey, helping customers see trade-in value earlier and improving purchase confidence.
- Built ROI models and market analyses that identified a \$500K revenue opportunity and supported prioritization decisions.
- Created KPI dashboards to track adoption, engagement, and sales trends, improving visibility for stakeholders and enabling faster planning decisions.
- Developed a central SharePoint repository containing training decks, FAQs, and launch communications, improving sales, support, and marketing readiness across customer touchpoints.

### Purdue University

West Lafayette, IN

#### Tour Ambassador

Feb 2019 – May 2022

- Delivered hundreds of campus experiences per year by adapting messaging to student, family, and educator audiences, maintaining strong satisfaction and engagement across visits.
- Collected customer feedback and operational metrics to improve visit flow and content, creating new tour routes that eased congestion on existing paths while expanding campus landmark viewings, raising consistency and clarity in campus tours.
- Built Excel dashboards to track visit volume and staffing, improving scheduling and resource allocation decisions for leadership.
- Trained new ambassadors and staff, standardizing communication quality across the team.

### Heineken (Nigerian Breweries)

Lagos, Nigeria

#### Intern

Jun 2019 – Aug 2019

- Partnered with engineers and analysts to optimize reporting workflows, reducing manual reporting time by 20%.
- Developed visual dashboards to shorten leadership decision cycles by 15%.
- Documented new processes and trained users to improve workflow consistency and adoption.

## ACADEMIC PROJECTS

---

### North Carolina birth records and Maternal Patterns – R Studio, Excel

- Conducted statistical analysis of North Carolina birth records using descriptive statistics, linear regression, t-tests, and chi-square testing to evaluate prenatal behaviors and infant outcomes, delivering data-driven healthcare recommendations.

## EDUCATION

---

### Purdue University

West Lafayette, IN

Bachelor of Science, Electrical Engineering

### Indiana Wesleyan University

Marion, IN

Master of Science, Data Analytics
